DATE: 14 Jan 1952

FROM

SUBJECT: OCD personnel auditing lectures at CIA Intelligence School.

A number of OCD personnel (mostly IR and Library) attended one or more lectures, in line with the experiment we discussed some time ago. In view of the general comments by the people attending, I think we would continue to advertise the lectures in the future, provided, of course, that we aren't too much underfoot over there. The attached are the original comments, as compiled in the divisions. I asked our people to pull no punches, and you may find their remarks of some interest.
